THE WORLD HAS CHANGED.

DECISIONS ARE DRIVEN BY AI, AND AI IS POWERED BY DATA.

BUT MOST INFRASTRUCTURE WASN'T BUILT FOR THIS MOMENT.

NetApp

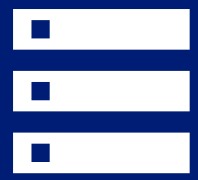
THE NETAPP DATA PLATFORM IS THE FOUNDATION FOR INTELLIGENT DATA INFRASTRUCTURE

Customer Imperatives



DATA INFRASTRUCTURE MODERNIZATION

CLOUD TRANSFORMATION

CYBER RESILIENCE

ARTIFICIAL INTELLIGENCE

NetApp® data platform

The unified, enterprise-grade foundation for intelligent data infrastructure

The NetApp Platform

Four capabilities, one system

AI-READY DATA

across your entire ecosystem

UNIFIED STORAGE

built for every cloud and workload

PROACTIVE PROTECTION

against evolving threats

COMPLETE CONTROL

in a single interface

NetApp © 2026 NetApp, Inc. All rights reserved.

Any workload.

AI, Agentic AI & Analytics
Training, inference, agents, and data lakes

Real-Time Apps
Fraud detection, AIOps, IoT telemetry, AdTech, and cybersecurity

Enterprise Apps & Databases
SAP, Oracle, and SQL

Virtualization & Containers
VMware, Hyper-V, KVM, and K8s

High Performance File & Object
EDA, HPC, M&E, and life sciences

Secondary Workloads
Backup & recovery, and cyber vault

The NetApp Platform

Available as-a-service via NetApp Keystone

Autonomous Control Plane

UNIFIED MANAGEABILITY | OBSERVABILITY | AGENTIC OPS | AUTONOMOUS OPTIMIZATION

AI Data Services

DATA DISCOVERY | CLASSIFICATION | GOVERNANCE | TRANSFORMATION | SEMANTIC SEARCH

Unified Storage

ON-PREMISES | PUBLIC & SOVEREIGN CLOUDS | NEOCLOUDS | EDGE

Microsoft aws Google Cloud ORACLE

Data Resilience

INTEGRATED ZERO TRUST

BUSINESS CONTINUITY

CYBER VAULT PROTECTION

RANSOMWARE DETECTION

RAPID RECOVERY

One platform. Anywhere your data lives.

Take command of your NetApp Platform

NetApp Console – hybrid multicloud support in SaaS

You're in Control

Unified intelligent management

Centralized control plane
Single point of management control
Data Services orchestration

One Console. Simplified Operations. Security First.

Intelligent, simplified operations

Simplified onboarding and deployment.
Intuitive home page and automated workflows
Licenses and subscription visibility and control
Real-time insights and alerts for proactive resolution

Security-first foundation

Identity first verification-controlled access
Least privilege rights with resource hierarchy that's multi-tenant
Meets compliance and governance requirements
Secured partner support-based access

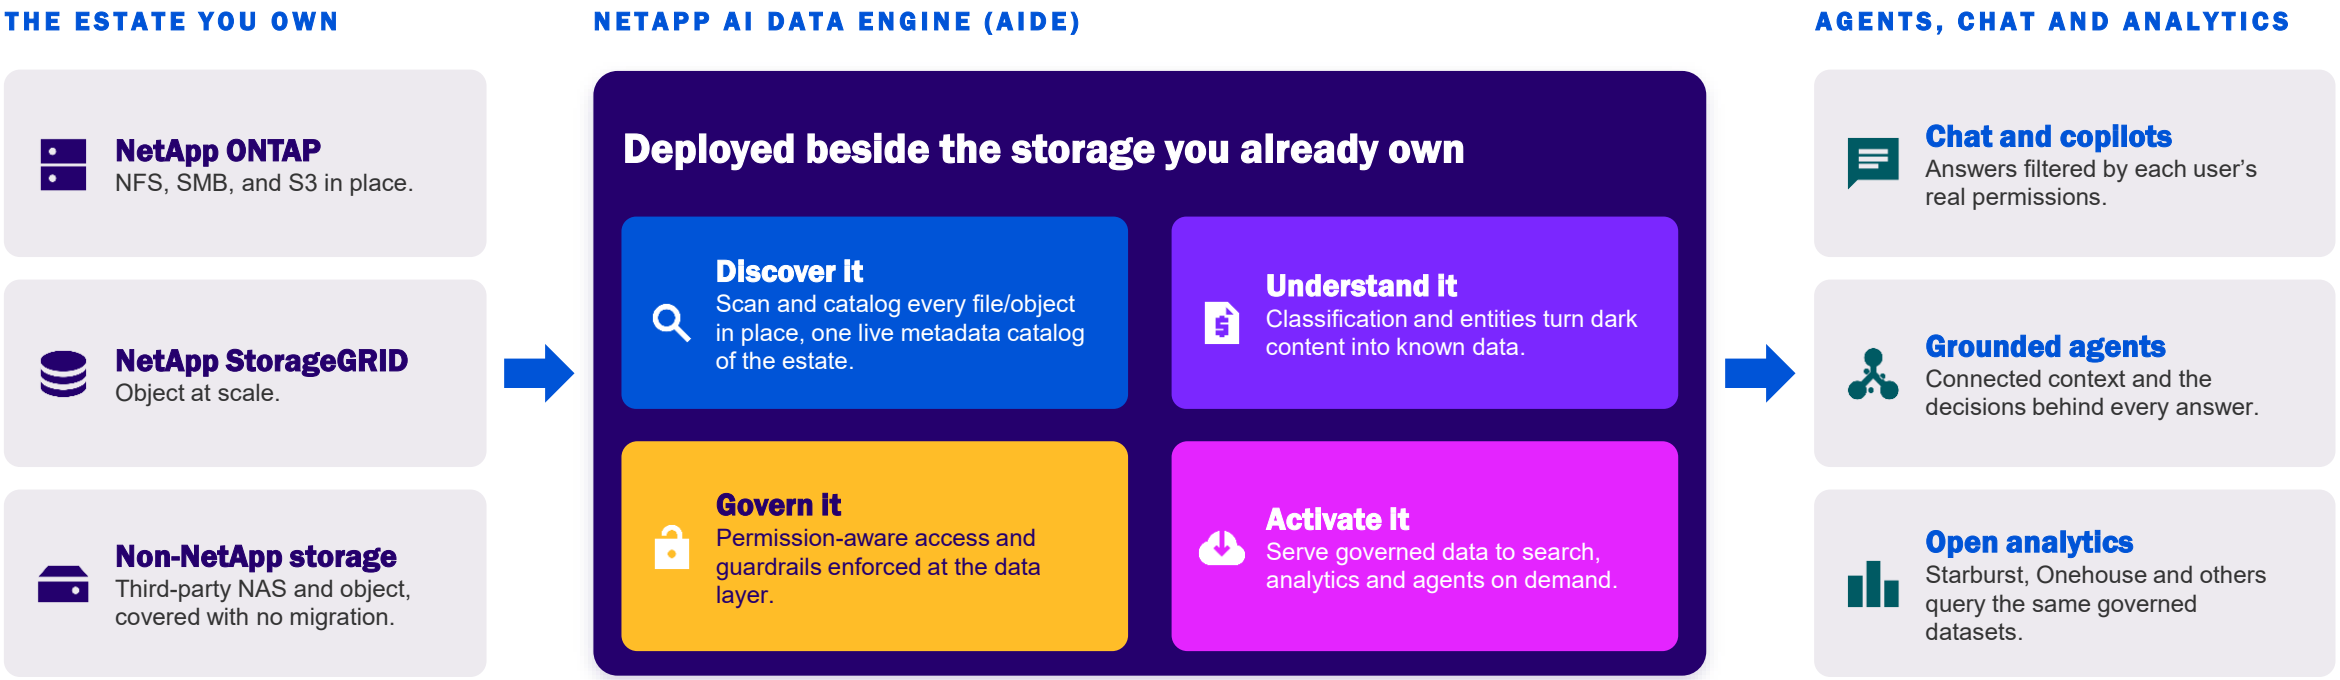
Discover, understand, govern, and activate the data you already own

NetApp AI Data Engine (AIDE), part of the NetApp Platform's AI data services layer, makes the data you own agent ready in four stages: discover, understand, govern, activate.



Stage 1, Discover it, is available now and is what the storage section that follows delivers. Low risk to start: metadata catalog of data you already own, and the data and AI teams inherit the very same foundation.
